PRODUCT DESCRIPTION

FELBER T18 OUTDOOR TABLE

DESIGN | DIETIKER, 2018

The Felber Collection is now ready for the outdoors. Just in time for spring, the successful Felber range is supplemented with the «Outdoor Collection». The indoor innovative family which is the first and only chair that allows you to mix and match between different versions of backs, seats and frames was the perfect basis for the outdoor family. Thanks to the robust powder coating, the chairs and tables are resistant to wind and varying weather conditions. The "Felber Outdoor Collection" is available in selected colours from the Felber Outdoor and Arik Levy collections.

Table top shapes

Suitable for wheelchairs

only frame type I
