## PRODUCT DESCRIPTION

# FELBER

DESIGN | DIETIKER, 2014

The innovative concept of THE FELBER COLLECTION is highly modular and yet immediately recognizable as Dietiker at first sight. The chair was inspired by a 1940s Dietiker chair. The Felber collection consists of chairs and tables. The Felber C14 series offers a flexible solution for multiple interior settings, from cafeterias, to dining at home, to meeting rooms and even religious facilities. The stackable chair is available with or without armrests, and inlaid or full upholstery for the back and seat. The latest member of the Felber Collection is the swivel-based C16 studio chair, adjustable in height.
