PRODUCT DESCRIPTION

XY TABLE

DESIGN | BRUNO REY AND CHARLES POLIN, 1995

XY Meeting Table is the ultimate conference table for meeting and board rooms, combining a timeless and classic design to a clever construction and integrated solutions for meeting. XY is conceived to offer a versatile array of sizes and shapes, while always providing generous legroom thanks to its ingenious construction and feet in X and Y shapes. The construction of chrome-plated steel tube also ensures a very high level stability. XY is available in various configurations: square, round, boat shape or ellipse. It is accessorized with optional cable management system and media box on request. Available in veneer, solid wood, or linoleum on request.
