FELBER T14 ROUND HIGH

DESIGN: DIETIKER, 2014

The consistent language of the Felber collection is also reflected in the table family. The tables allow for optimal legroom thanks to the clever arrangement of feet in X and Y.

TECHNICAL DATA

CONSTRUCTION

Table top thickness of 30 mm, in HPL melamine surface, wood veneer or solid wood. Feet are made of solid wood 30mm and screwed with a mounting plate 30 mm MDF. The table has 3 Y-feet.

CONFIGURATION

Table top: HPL melamine with ABS edge
Veneer beech with edge U5
Veneer oak with edge U5
Solid wood beech with edge 37
Solid wood beech with edge 50

Feet: Solid wood beech

WOOD OPTIONS

Standard: Beech

Option: Oak with surcharge, other types of wood on request

WOOD SURFACE TREATMENT

Stained with a water-based stain, highly resistant to light, based on dye / pigment inks.

Varnished with a varnish 2-component water-based, PU-based with very good resistance to light and a protective effect to light (UV filter).

Meets the highest standards according to DIN 68861 and the high fire safety regulations (hardly inflammable).

The same applies for the solvent-based paints used for oak.

GLIDES

Standard: Plastic
