# SATU

DESIGN: CHRISTOPH HINDERMANN, 2001

---

Satu is an elegant and light seating solution for cafeterias. With its flexible adaptable back, it was engineered to combine individual comfort with modern elegance. Available in beech with mesh back, and with an optional upholstered seat.

## TECHNICAL DATA

---

### CONSTRUCTION

---

Precision tubular steel frame 18/2 mm welded  
Moulded plywood seat, 6-ply, peeled veneer  
Pop rivets for seat attachment (configuration without upholstery)  
Tubular steel back frame 10/2 mm with black powder-coated flat steel bar cross members for mesh back  
Chromed steel handle on top of back frame, steel handle and back frame fastened together using hidden metal adapters  
Pass-through width between the handle bar and back frame 40 mm  
Back fastened to the frame using plastic adapters  
Plastic fabric mesh back  
Stacking base, PP black

---

### CONFIGURATIONS

---

Standard: Moulded plywood seat in beech, mesh back  
Option: Upholstered seat  
Flame retardant foam padding

---

### ARMRESTS

---

Armrests connected to the back frame by plastic parts  
EPDM rubber armrest covers, 170 mm long, diameter 19 mm, black non-staining (65 +/-5 Shore)

---

### MESH BACK

---

Mesh back made of resistant plastic mesh, polyester monofilament  
Colours: black, other colours on request

---

### WOOD SURFACE TREATMENT

---

Stained with highly light-fast, water-based stain (dye/pigment) on request.  
Coated with 2-component, water-based polyurethane lacquer that has excellent light-fast properties and acts as a UV filter.  
Meets highest standards according to DIN 68861 and complies with increased fire safety requirements (flame-retardant).

---

### GLIDES

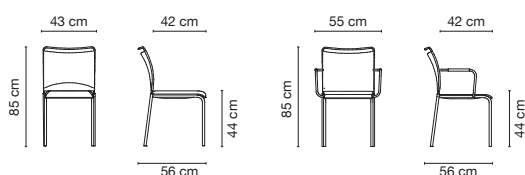

---

Standard: Plastic  
Option: Felt  
Metall

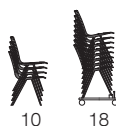

---

### DIMENSIONS

---

Weight 4.8 - 5.1 kg  
Fabric need 0.55 lfm.  
Leather need 0.38 m<sup>2</sup>  
Load up to 110 kg  
Stackable Yes
