

FELBER C14 BARSTOOL

PRODUCT DATA SHEET

FELBER C14 BARSTOOL

DESIGN: DIETIKER, 2014

The Felber collection was created in the tradition of Dietiker. The collection is inspired by a 1940s Dietiker chair. The collection consists of chairs and tables. The bar stool is suited to current comfort requirements and offers an ideal solution for bars, restaurants and cafeterias.

Available in beech or oak, other woods on request

TECHNICAL DATA

CONSTRUCTION

Frame construction in solid beech.
Seat and back 8-ply glued, beech plywood ergonomically molded.
Chromed footrests with lateral wooden frames.

CONFIGURATION

Standard: Seat and back in molded plywood
Options: Seat only or back and seat with inlaid upholstery
Flame retardant foam padding

WOOD OPTIONS

Standard: Beech
Option: Oak with surcharge, other types of wood on request

METAL SURFACE TREATMENT

Chromed

WOOD SURFACE TREATMENT

Stained with a water-based stain, highly resistant to light, based on dye / pigment inks.
Varnished with a varnish 2-component water-based, PU-based with very good resistance to light and a protective effect to light (UV filter).
Meets the highest standards according to DIN 68861 and the high fire safety regulations (hardly inflammable).
The same applies for the solvent-based paints used for oak.

GLIDES

Standard: Plastic
Option: Felt

DIMENSIONS

Weight	6.8 kg
